3 **REMARKS**

4 **Divisional Application:** This is a filing of a
5 divisional application under 37 CFR 1.53(d). The included
6 parts of this application are the a true and original copy
7 of the original application, and a true and original copy of
8 the original declaration. The inventors of the present
9 divisional application are the same persons listed on the
10 declaration filed with the original application. No new
11 matter has been added with this amendment. The cancelled
12 claims 1-19 are the elected species I of the parent case,
13 cancelled claims 20-37 are the non-elected species II, and
14 the claims herein are the non-elected species III of the
15 parent case, where the species types are identified in the
16 office action of Sept 29, 2003.

17
18 **Claims:** The claims 1-19 of the parent application
19 directed to figure 5 are cancelled, as are claims 20-37 to
20 the non-elected species having a multi-cut final waveguide.
21 The amended claims of this divisional application are
22 directed to the non-elected matter of figures 5 & 9 and its
23 variants of the parent application whereby the final
24 waveguide is cylindrical and the feed waveguides are
25 helical. Claim 48 directed to a multi-cut final waveguide is

1 cancelled. New claims 53-84 are submitted which are derived
2 from the matter of figures 5 & 9.

3

4 **Specification:** The specification is amended to include
5 a reference to the earlier-filed application, as required
6 under 37 CFR 1.53(d).

7

8 **Drawings:** Formal drawings are submitted for all
9 drawing figures, identical to those filed in the parent
10 case.

11

12 With this amendment, the 37 CFR 1.53(d) divisional
13 application is in condition for first office action.

14

15

16

Respectfully Submitted,

17
